May 3, 2004

Dear Good Hope Supporter:

Thank you for attending the Good Hope Hospital replacement project update event sponsored by the Good Hope Grassroots Committee. Close to 500 people from across Harnett County turned out to once again voice their overwhelming support and enthusiasm for the replacement hospital. We were encouraged by the attendance and the positive comments regarding our project. This support should prove to Betsy Johnson Regional Hospital (BJRH) and state officials that the people of this county want a choice in healthcare.

We are sending another set of letters (one letter for each BJRH board member) to use, to photocopy, and to share with others. There are minor differences between these letters and those in the original packet.

Please follow the mailing instructions below to ensure that each trustee of BJRH hears that you want them to stop their opposition to the Good Hope Hospital replacement hospital:

- Sign and print your name and address on the line at the bottom of the letter;
- Mail each letter to the board member indicated; or
- Drop off the signed copies to Administration at Good Hope Hospital, and we will be happy to mail them for you.

Also included in this mailing is a recent letter from BJRH to Good Hope and our response. Please take the time to read both letters so that you can gain a better understanding of the history of our endeavor to build a hospital that will serve all the citizens of Harnett County.

We understand that Pam Tripp of BJRH has distributed information that is misinformed and critical of Good Hope and Triad. This action is but one of many desperate steps that BJRH is willing to take to close Good Hope. For more information about Triad, please review your packet handouts or visit Triad's website at www.triadhospitals.com. The Trustees of BJRH need to know that the public is holding them responsible for Betsy Johnson's decision to fight Good Hope Hospital's replacement Certificate of Need application.

Once again, thank you for your continued support.

Sincerely,

Fay Joy
Marketing Director
